Renlita Overhead Doors®

ORIENTAL SLIDING DOOR

Any Shape - Any Length

Monarch Oriental Doors can be seen in Australia's international, domestic and overseas terminals, in all major shopping centres and in the most prestigious residential and commercial buildings. Featuring many exquisite contours and colors, Oriental Concertina Doors are ergonomically designed to maximise space and custom made to fit individual specifications another reason why we are leaders in our field.

Applications:

The Oriental concertina door is available in two models, the Oriental 150mm and Oriental 300mm.

These doors are suitable for many commercial applications including the following:

- Shopping centers
- Bar tops
- Store fronts
- Sports complexes
- Arcades
- Countertops
- Doorways
- Clubs

Specifications:

Track - Extruded aluminium 1.4" wide x 1.6" high. Curved tracks are supplied with a minimum radii to provide smooth operation.

Minimum radii for 150 Model - 11.8"

Minimum radii for 300 Model - 23.6"

Curtain - Oriental 150 incorporates 5.9" wide x 4.7" high solid aluminium panels at the top and base whilst the Oriental 300 incorporates 11.8" wide by 4.7" high at the top and base.

Panel edges to be two piece aluminium extrusions forming a 165 degree continuous hinge. Panels are glazed with 1/8" or 2/8" toughened glass, polycarbonate or 0.06" perforated metal sheet.

Glazing material is held captive by custom designed PVC extrusions to all edges. Horizontal members are added for strength and security and are dependant on opening height.

Lock - Locking styles 50 x 1.3" Aluminium extrusions fitted with Monarch custom lock. Internal, external or both side key and/or snib operation are available.

The overhead structure must be designed to support the doors in the open and closed positions.
